

Newly available

AMV8 Vantage Front Spoiler

Made on the original, refurbished Production tooling, the latest version of the Air Dam was introduced in 1983 and features the wider flare that matches the wider bodywork used on Vantage from VIN 12353.

This version was used with the 8'' wide BBS Wheel and 275P7 Tyre, it continued in the same form for the cars fitted with the 16'' Diameter Ronal Wheel until the end of production in 1989.

Part number: **78-18905**

We still have available the non flared version used before the change,
Part number: **095-088-0073**

The above parts are available from stock and can be ordered from any Heritage Specialist or Main Dealer.
