

Engine Sump Plug

We have recently re-designed the Engine Sump plug used on all models from DB4 to Vantage Le Mans.

This revised part offers significant improvements whilst maintaining originality. The longer thread offers more positive engagement, the washer seating is bigger and a longer magnet has been fitted with improved location.

We have also been able to reduce our pricing substantially offering great value for money for this high quality Genuine Aston Martin Heritage part.

This part can be ordered from any Heritage Specialist or Main Dealer by quoting part number 691683.
