

**Part Number**

**Description**

**Engine and components**

020-002-0120 T V Damper

This has been made from all new tooling with modern bonding methods to ensure the durability and improved balancing techniques of this vital part

095-010-0101 Engine rubber mounting

Metal / Rubber mounting, often the cause of vibrations when worn or broken

05-26303 Water pump  
05-26313 Water pump  
05-26459 Water pump

As fitted to the early cars with no Rear Air Conditioning  
Fitted to all Carburettor cars with Rear Air Conditioning  
EFI Cars only  
These are not reconditioned units.  
Made from all new components and assembled in our own Workshop

080-005-0104 Gasket for above

095-043-0007 Decoke gasket set  
43-26858 Decoke gasket set

Suitable for all Carburettor Cars  
Suitable for Electronic Fuel Injection (EFI) cars

095-043-0008 Bottom end gasket set  
43-26859 Bottom end gasket set

Suitable for Carburettor cars, all the gaskets you will need for that rebuild  
Suitable for Electronic Fuel Injection (EFI) cars

**Part Number**

**Description**

07-21757 Ignition lead set  
37-21685 Ignition lead set

Suitable for the Carburettor model's  
Suitable for the Electronic Fuel Injection (EFI) model's  
Complete with inner and outer shrouds  
Lead material is of modern, high performance specification.  
Discreetly branded with the Aston Martin wing.

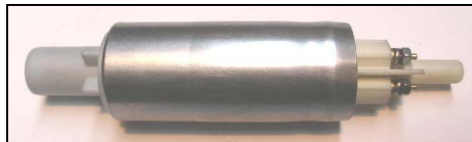

**Fuel, cooling and exhaust**

34-27837 Fuel pump kit

Suitable for all EFI Cars

34-27047 Fuel pump

Suitable for all Carburettor cars

34-27048 Fuel pump sock

Fitted to above - must be ordered with 34-27047

095-034-0700 Fuel filter Carburettor cars  
34-53604 Fuel filter EFI

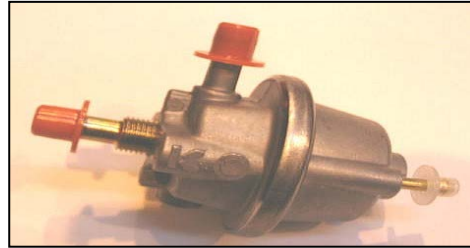

An important service item to maintain the clean running of your fuel system

**Part Number**

**Description**

08-21023 Pressure regulator

Fitted to all EFI cars and a source of fuel pressure loss.

96-14665 Air filter element  
08-18037 Air filter element  
08-25971 Air filter element

Used on cars up to VIN: 13194  
Used on cars from VIN: 13195 but excluding EFI  
All EFI cars only

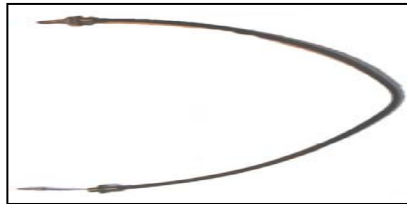

**Gearbox and drivetrain**

093-002-0101 Torque converter drive plate

Bolted to the front of the converter, this part can be the source of unwanted vibrations.

096-031-0101 Kickdown cable

**Part Number**                      **Description**

081-031-0717 Gearbox tailshaft seal

The source of those annoying little drips on the garage floor.

093-031-0701 Transmission oil filter  
081-031-0730 Sump pan gasket

Part of the servicing schedule to maintain the performance of your gearbox  
Required when replacing filter above

26-14857 Hypoid nose rubber mounting  
068-026-0149 Rear hypoid rubber mounts

A source of unwanted vibration

**Suspension and Steering**

23-16512 Front shock absorber kit

Developed from the standard Koni unit to compliment the rear kit, shock absorbers are an important part of the cars handling and safety and need to be kept in good order  
These must be replaced as a pair '

23-15542 Front Spring

Original specification, to go with the front shock absorbers, **always replace in pairs.**

**Part Number**

**Description**

26-27659

Rear shock absorber kit

This conversion kit replaces the original self levelling unit, offering the same ride and handling characteristics but with improved reliability. These must be replaced as a pair '

26-10765

Rear Spring

Original specification, to go with the rear shock absorbers, **always replace in pairs.**

25-11024

Lower rubber coupling

Steering column lower coupling replacement rubber, this is an important part to maintain handling and safety. **An important MOT failure component**

**Front and Rear Brakes**

23-19725

RH Front brake disc - slotted face

23-19726

LH Front brake disc - slotted face

96-13099

Front pad kit - axle set

For safety it is recommended that discs are 'ONLY' replaced as a pair  
For safety it is recommended that discs are 'ONLY' replaced as a pair

28-18721

Rear brake disc assembly

080-028-0701

Rear pad set - axle set

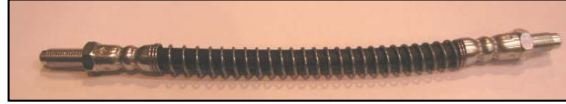

Balanced to ensure minimal vibration and noise - replace in pairs only

**Part Number**

**Description**

33-10833 Front brake hose  
33-10826 Rear brake hose

A safety critical part that can effect brake performance and safety  
An important MOT checking item

**Electrical components**

097-037-0113 Fuel flap solenoid  
37-64311 Fuel flap solenoid

Pre-facelift cars  
Facelift cars only
