

At Aston Martin we are constantly thinking of ways to make rebuilding your car easier.

After a strip down and repaint you will want to replace all the body seals fitted around the car. To help with this we have compiled Body Seal Kits, which include Front and Rear screen seals, Bonnet and Boot seals and all the seals in and around the door and side glasses. We have also included bumper grommets where applicable.

These kits offer up to a 24% saving over buying the parts individually.

Applications:

77-27015 DB5

77-27018 AMV8

77-27016 DB6

77-27019 AMV8 Volante

77-27017 DBS

77-27020 Virage Saloon

For further details and to order these or any other Heritage parts please contact one of our Heritage Specialists or Main Dealers, details of which can be found by following the link on the News page.
